Tournament

Rollup

Three dates are chosen for this demonstration event, 1 entries close, 2 qualifying and 3 post section. If there is a bye then it can be set as an automatic win or not.

| | | |
|-------------------|---|-----------------|
| Event type | Club Championship ▼ | |
| Day Programme | 05-02-2015 | Entries close ▼ |
| | 07-02-2015 | Qualify ▼ |
| | 08-02-2015 | Post section ▼ |
| Games in qualify | 3 games ▼ | |
| Wins needed for Q | 2 win ▼ | |
| Bye condition | Bye is a win: <input checked="" type="checkbox"/> | |
| | Set this bye condition as default: <input type="checkbox"/> | |

Player restrictions: In here you chose from a drop down list either

1. Close (Only for club members in your database)
2. Open (Open to all affiliated BowlsNZ members)
3. Non Bowlers (Casual bowlers, ie business house bowlers etc)

The second restriction is to further filter your database members, for the purpose of this demo we will be choosing men.

| | |
|------------------------|---|
| Players restrictions 1 | Close ▼ |
| Players restrictions 2 | Men ▼ |
| Conditions of play | Please Select |
| | Men |
| Handicap | Women |
| | Mixed |
| | Any Combo |
| | Junior men |
| | Junior women |
| | Age |
| | Yes: <input type="radio"/> No: <input checked="" type="radio"/> |

In the conditions of play you can choose a saved “condition of play” or write a new one and save it for future use by giving it a name and clicking the “Add New Condition”.

| | |
|--------------------|------------------------|
| Conditions of play | Champ Triples ▼ |
| | 18 ends, no time limit |
| | Name of condition |
| | Add New Condition |

If you want to add a whole lot of conditions there is a specific tab for this where you can add, modify or delete conditions of play.

| # | Name | Text |
|---|---------------|--|
| 1 | 2x4x2 | Two wins from three games to qualify, 15 ends and... |
| 2 | Gala_10 | Games consists of 10 ends. Killed ends come down.... |
| 3 | Champ Triples | 18 ends, no time limit |

The rest of the event configuration is fairly self-explanatory. The Opposition and Selection fields are only for club rep teams. The Player Numbers is to select what type of team is playing the event. The reason why you can add a number is for rep teams and some tournaments where you will have multi-types of team formats. If you were setting up your interclub Div 1 team you would choose 1 x Fours, 1 x Pairs and 1 x Singles.

Once you click save, the event will now be in the Draw and Results Tabs.

Draw Tab

The draw tab is obviously where you add the teams and players per green. Your club greens can be added, modified or deleted in the Greens Tab.

The screenshot shows a web interface with a navigation menu at the top containing tabs for Members, Club Fees, Events, Draw, Results, Selection, Other players, Greens, and Co. Below the menu, the 'Draw' tab is active. On the right side, the text 'Men's' is partially visible. The main content area includes a 'Select Green' dropdown menu currently set to 'Cotula Green'. A dropdown list is open, showing 'Cotula Green' (highlighted in blue) and 'Dales Green'. To the right of the dropdown are two buttons: 'Add Players/Teams' and 'Clear'. Below these elements is a 'Draw/Save' button.

Our club green names are Cotula and Dales.

Currently the online registration for events isn't coded yet but once this is done then we can choose the skip from a drop down box and all his team members will automatically populate the appropriate fields. However at the moment we will add these team members from a drop down box. Only players that are entitled to play in this event will be able to be selected from the drop down box, in this demo only club members and men. Men's names have a blue background and women a pink. This helps when selecting mixed teams.

Bowling clubs can either choose a computer generated random draw or like in our demo a manual draw.

Results Tab

Club Championships

When recording a win for a player, the opposition automatically changes to a lost. This means you are only entering half of the results. For our club championships we require two wins out of three to qualify. So when someone gets two wins, the software automatically shows them as qualified.

| Wins needed for Q | | | | Results | | | |
|------------------------|--------------|-----------------|-------|---------|------|---------------|-----------|
| 2 win | | | | | | | |
| 1 win | | | | | | | |

Save

Save & Close qualification

Each time you click the save button, the result is live on your website. Once you have finished the qualifying round, click the "Save & Close Qualification" the programme will automatically create the post section draw based on the number of players that have qualified. The post section draw can be computer generated or manually entered as some clubs prefer to have the draw done in the club house. It's entirely up to how your club wants the post section draw done.

You will note the drop down box at the top of the qualifying draw above. This box allow you to change how many wins to qualify as sometimes the day might be rained out after the first game or maybe completely rained out and everyone qualifies.

Save Post. Draw
[+ Show qualification](#)

If the post section draw is manually done, then once the names are entered into the draw and saved then the post section is live on the website and the next day you can enter the scores as the games progress throughout the day. Again every time you enter a result and save, the result is live. This allows any of your members, their family or friends to watch the progress of your club championships as it happens without needing to be at the bowling club.

See our Men's Championship Results page, http://levin.bowls.org.nz/?page_id=57

You set the value of a win, draw and lost when you create the event in the Event Tab. Entering the results couldn't be easier; you choose either a win / draw / lost in the drop down boxes, then enter the ends won (E) and shots scored or differential (S). The winners are automatically found by the predetermined values and the position order is auto displayed on the website. See our results webpage for a typical gala http://levin.bowls.org.nz/?page_id=4731 You will note that prices for this particular event are per green, this condition is set when creating the event.
